### Model EL5

This entry level line boring kit is designed to do bores from 1.5" up to 5" in diameter. The bar drive motor has 2 speeds - 250 and 500 rpm. The manual carriage has an adaptor to accept a 3/8" drive ratchet to assist in feeding. The bar drive motor has our standard morse taper adaptor, making this unit compatible with our 3/4" bar kit and our 2" bars and accessories. The mounting head comes with our standard adaptor plate allowing for bore welders to be attached.

#### Other York line boring solutions:

Hydraulic

Cadet
